Economies of agglomeration are cost savings arising from urban agglomeration, a major topic of urban economics. One aspect of agglomeration is that firms are often located near to each other. This concept relates to the idea of economies of scale and network effects.. As more firms in related fields of business cluster together, their costs of production may decline significantly (firms have ...

## Additive manufacturing and sustainability: an exploratory

1. Introduction. Different personality traits can provide competitive advantages for humans in different environments. Certain personality characteristics can facilitate increased drive for learning and development (Major, Turner, & Fletcher, 2006), in addition to fostering increased commitment and knowledge sharing in groups (Matzler, Renzl, Mooradian, von Krogh, & Mueller, 2011).

## Do certain personality traits provide a mating market
