Diethylcarbamazine (DEC) is a medication used in the treatment of filariasis including lymphatic filariasis, tropical pulmonary eosinophilia, and loiasis. It may also be used for prevention of loiasis in those at high risk. While it has been used for onchocerciasis (river blindness), ivermectin is preferred. It is taken by mouth. Common side effects include itching, facial swelling, headaches ...

A formal specification is a mathematical description of software or hardware that may be used to develop an implementation. It describes what the system should do, not (necessarily) how the system should do it. Given such a specification, it is possible to use formal verification techniques to demonstrate that a candidate system design is correct with respect to that specification.

Specification (technical standard) - Wikipedia

The Guiding Principles for Medication Management in Residential Aged Care Facilities builds on previous editions of guidelines developed under Australia's National Medicines Policy.¹ The policy aims to meet Australia's medication and related service needs, to achieve optimal health outcomes and economic objectives. One of the four central objectives of the policy is the Quality Use of ...

A practical and scalable synthetic method to obtain dolutegravir sodium (1) was established starting from the readily accessible material maltol (2). This synthetic method includes a scalable oxidation process of maltol and palladium-catalyzed amidation for introduction of an amide moiety, leading to a practical manufacturing method in short synthetic steps.
