In the United States, the chargemaster, also known as charge master, or charge description master (CDM), is a comprehensive listing of items billable to a hospital patient or a patient's health insurance provider. In practice, it usually contains highly inflated prices at several times that of actual costs to the hospital. The chargemaster typically serves as the starting point for ...

Planning for Construction. To achieve the client's aspirations on cost, programme and quality, planning for construction should start at the very beginning of the design process. Such planning should consider the construction sequence, the design factors that affect buildability, and site practice in terms of typical erection plant.

Comments. I note the Government Construction Strategy required fully collaborative 3D BIM by 2016.. Does anyone have performance figures in achieving this target? Were damages recovered from those that did not achieve? How is the Government Soft Landings protocol being applied to eg Palace of Westminster project?. PS I ticked the box below to verify I am not a robot.
