COMPUTER NETWORK - WIKIPEDIA

computer networking kurose ross pdf

Description. For courses in Networking/Communications. Motivate your students with a top-down, layered approach to computer networking. Unique among computer networking texts, the Seventh Edition of the popular Computer Networking: A Top Down Approach builds on the author's long tradition of teaching this complex subject through a layered approach in a "top-down manner."

Kurose & Ross, Computer Networking: A Top-Down Approach

A computer network is a digital telecommunications network which allows nodes to share resources. In computer networks, computing devices exchange data with each other using connections between nodes. These data links are established over cable media such as wires or optic cables, or wireless media such as Wi-Fi. Network computer devices that originate, route and terminate the data are called ...

Computer network - Wikipedia

Packet loss occurs when one or more packets of data travelling across a computer network fail to reach their destination. Packet loss is either caused by errors in data transmission, typically across wireless networks, or network congestion. Packet loss is measured as a percentage of packets lost with respect to packets sent.

Historikk. DHCP ble definert som standard protokoll i oktober 1993 av Internet Engineering Task Force. DHCP fikk en oppdatering i 1997 som fortsatt er i bruk. Siden DHCP ble oppfunnet før nettverkssikkerhet ble viktig har ikke den grunnleggende DHCP protokollen noen sikkerhet.

DHCP – Wikipedia

DHCP (User Datagram Protocol, UDP) er et nettverksprotokoll som brukes til å distribuere IP-adresser til maskiner i et nettverk. DHCP ble utviklet i 1980-årene av IETF RFC 768 og er en del av TCP/IP-protokollfamilien.

TCP/IP — History

Povijest. Izvorni tehnički opis za FTP je napisao Abhay Bhushan i objavljen je kao RFC 114 16.4.1971. godine te poslije zamijenjen RFC 765 (lipanj 1980.g.) pa je zamijenjen s današnjim tehničkim opisom RFC 959 (listopad 1997.g.). Nekoliko standarda dopuna je predloženo RFC 959, npr. RFC 2228 (lipanj 1997.g.) predlaže sigurnosno proširenje i RFC 2428 (rujan 1998.g.) dodaje podršku za ...

FTP – Wikipedija

La principal es la Pila de Protocolos de Internet(TCP/IP), la cual se compone de cinco capas: . Capa de Aplicación: donde residen las aplicaciones de red y sus protocolos.La capa de aplicación de Internet incluye muchos protocolos, tales como HTTP, SMTP y FTP.Un protocolo de la capa de aplicación está distribuido a lo largo de varios sistemas terminales, estando la aplicación en un ...

Telemática - Wikipedia, la enciclopedia libre

Visão geral do protocolo. O protocolo é especificado na RFC959, resumida logo a seguir. [1]Um cliente realiza uma conexão TCP para a porta 21 do servidor.Essa conexão, chamada de conexão de controle, permanece aberta ao longo da sessão enquanto uma segunda conexão, chamada conexão de dados, é estabelecida na porta 20 do servidor e em alguma porta do cliente (estabelecida no diálogo ...

File Transfer Protocol – Wikipédia, a enciclopédia livre

En el modelo OSI se distinguen diferentes niveles o capas en los que las máquinas pueden trabajar y comunicarse para entenderse entre ellas. En el caso de los enrutadores encontramos dos tipos de interfaces: . Interfaces encaminadas: son interfaces de nivel 3, accesibles por IP.Cada una se corresponde con una dirección subred distinta. En IOS se denominan "IP interface".
