The design of a practice influences the relationship between physicians and patients. You can take simple design steps to enhance workflow efficiency and patient safety, as well as patient and team interactions and satisfaction. 1- 8 “We were inconveniencing our patients and creating unnecessary work for ourselves.

Optimizing Space in Medical Practices | Workflow and

A virtual learning environment (VLE) is a system that creates an environment designed to facilitate teachers' management of educational courses for their students, especially a system using computer hardware and software, which involves distance learning. In North America, a virtual learning environment is often referred to as a "learning management system" (LMS).

Health informatics (also called health care informatics, healthcare informatics, medical informatics, nursing informatics, clinical informatics, or biomedical informatics) is information engineering applied to the field of health care, essentially the management and use of patient healthcare information. It is a multidisciplinary field that uses health information technology (HIT) to improve ...

Health informatics - Wikipedia

Abstract. Supraventricular tachycardia (SVT) is a common cardiac rhythm disturbance; it usually presents with recurrent episodes of tachycardia, which often increase in frequency and severity with time.

Supraventricular tachycardia | The Medical Journal of

News Release UTPB to preserve various materials into accessible digital archives Watch for the virtual library, with 3-D no less Nov. 17, 2017. There is a saying that: “Once you have poured your heart and soul into a master’s thesis that only a handful of people will have read it (namely your committee), and the bound book that you purchase will languish on your bookshelf gathering dust.”
