VISUAL COMMUNICATION AND SEMIOTICS *f* Some basic concepts *f* ... - According to Stuart Hall, all images are both encoded and decoded. They are encoded in the production process and in the placement within a certain cultural setting. They are decoded by the viewers/readers.

VISUAL COMMUNICATION AND SEMIOTICS Some basic concepts

Graphic communication as the name suggests is communication using graphic elements. These elements include symbols such as glyphs and icons, images such as drawings and photographs, and can include the passive contributions of substrate, color and surroundings. It is the process of creating, producing, and distributing material incorporating words and images to convey data, concepts, and emotions.
