BLENDING AND CONCEPTUAL INTEGRATION

The ARC conceptual design study has been extended to include a divertor. • Long legged X-point target divertors are implemented with no impact on core plasma.

Conceptual design study for heat exhaust management in the

Clinical study design is the formulation of trials and experiments, as well as observational studies in medical, clinical and other types of research (e.g., epidemiological) involving human beings. The goal of a clinical study is to assess the safety, efficacy, and / or the mechanism of action of an investigational medicinal product or procedure, or new drug or device that is in development ...

Clinical study design - Wikipedia

The engineering design process is a methodical series of steps that engineers use in creating functional products and processes. The process is highly iterative - parts of the process often need to be repeated many times before another can be entered - though the part(s) that get iterated and the number of such cycles in any given project may vary. ...

The conceptual framework guiding our analysis is based on OTL. Students' opportunity to learn the content of state standards is at the heart of standards-based educational reform efforts (Porter, 1995). A central premise of standards-based reform policies is that the content of teachers' instruction is weak and variable across sites, owing in large part to the conflicting messages teachers ...
