1. Introduction. A recent study [] provided a conceptual design for a compact fusion pilot plant and fusion nuclear science facility based on the exploitation of newly-available high-temperature superconductor (HTS) tapes for high-field magnets. The ARC (Affordable Robust Compact) design has several attractive features including: 1. plasma energy gain  $Q > 10$  at compact size (major radius, R ...

Honors. Criteria used by the School of Physical Sciences in selecting candidates for honors at graduation are as follows: Approximately 2 percent will be awarded summa cum laude, 4 percent magna cum laude, and 10 percent cum laude. Honors are awarded on the basis of a student's performance in research, cumulative grade point average, and performance in upper-division courses in the major.

Why Take a Math Course? Mathematics can be described as a language, a tool, a science, and an art. CTY math courses aim to give students the skills, knowledge, and perspective to understand the multifaceted nature of mathematics and, by doing so, enrich and accelerate their explorations of advanced math content.

Social science. In social sciences, schematically, if there is an interaction or feedback loop between ideal and material or subjective and objective then the system is an open system, otherwise it is a closed system. A closed system offers a deterministic relationship. René Descartes' view of a Cartesian subject as a determining agent, detached from nature, is a closed system.

Fritjof Capra, Ph.D., is a scientist, educator, activist, and author of many international bestsellers that connect conceptual changes in science with broader changes in worldview and values in society. Over the past 30 years, Capra has been engaged in a systematic exploration of how other sciences and society are ushering in a similar shift in worldview, or paradigms, leading to a new vision ...
