concorde pdf

On July 25th, 2000 one of the Concorde supersonic jets crashed near Paris, France killing all 109 people onboard in addition to 4 on the ground. One of the aircraft tires disintegrated during take-off, rupturing a fuel cell. Fuel spilled into the intakes of engines 1 & 2, choking the air flow and shutting them down.

CONCORDE® Bullet Lumbar Interbody System - Synthes

Setting the Stage- Back Story of the Concorde Incident Root Cause Analysis. The history of supersonic commercial air travel has its roots in the 1950s and 1960s, the same period that witnessed the Cold War American and Soviet spaceflight rivalry that launched man into space. While the Cold War superpowers jockeyed to conquer the stars,...
