When structures made of concrete are demolished or renovated, concrete recycling is an increasingly common method of utilizing the rubble. Concrete was once routinely trucked to landfills for disposal, but recycling has a number of benefits that have made it a more attractive option in this age of greater environmental awareness, more environmental laws, and the desire to keep construction ...

Precast concrete kentledge blocks are used to act as ballast or counterweights for fencing, hoarding, scaffolding, or for various temporary works. By using precast concrete kentledge blocks for above ground/no dig fencing and hoarding systems you avoid the risk of costly service strikes. They can also be attached to wire ropes which are fixed to the structure to provide greater stability.
