### **Proxemic Behavior A Cross Cultural**

Proxemics is the study of human use of space and the effects that population density has on behaviour, communication, and social interaction.. Proxemics is one among several subcategories in the study of nonverbal communication, including haptics (touch), kinesics (body movement), vocalics (paralanguage), and chronemics (structure of time).. Edward T. Hall, the cultural anthropologist who ...

### **Proxemics - Wikipedia**

Human spatial behavior has been the focus of hundreds of previous research studies. However, the conclusions and generalizability of previous studies on interpersonal distance preferences were limited by some important methodological and sampling issues. The objective of the present study was to compare preferred interpersonal distances across the world and to overcome the problems observed in ...
