Myths provide guidance for difficult times. They can give encouragement as we struggle to survive horrendous ordeals. I have found that in clinical work, and in my own journey, it is useful to study mythic stories for hope. After all, those classic heroic seekers did get through their awesome challenges. The tales also provide hints on dealing with mid-life crises or other difficult transitions.

Transpersonal psychology is a sub-field or "school" of psychology that integrates the spiritual and transcendent aspects of the human experience with the framework of modern psychology. It is also possible to define it as a "spiritual psychology". The transpersonal is defined as "experiences in which the sense of identity or self extends beyond (trans) the individual or personal to encompass ...
